## ARE WE GOING TO SEE ROBOT CAMPAIGNERS IN 2022 ASSEMBLY POLLS?

**INTO THE  
future**

### FEATURES

- 1 'Doot' is set to serve the political parties by reaching out to a limited group of people with their messages amid the pandemic
- 2 "The robot's rover has a large wheelbase, with an all-wheel-drive gearbox, which enables it to move easily even on rough surfaces. Through artificial

**A**s mass public gatherings remain an obvious danger in India amid the lethal Covid-19 waves, you may see humanoid robots holding campaigns on behalf of the political leaders in the 2022

Assembly elections. Onestand India Pvt Ltd has developed a humanoid robot called 'DOOT' for this purpose, which can communicate and

The states that go to the polls in 2022 are Uttar Pradesh, Uttarakhand, Punjab, Himachal Pradesh, Goa and Gujarat

deliver the impression of a human being with excellent voice recognition, face recognition and gestures. These robots are likely to be seen campaigning for the Assembly polls next year, and according to the company, they are in talks with the respective political parties to deploy these robot campaigners for the state elections next year. Due to the pandemic, political leaders are unable to meet even their party workers. These robot campaigners will save a lot of time, as multiple humanoids could go to multiple places at the same time, feel experts.

intelligence (AI)-enabled voice recognition, the humanoid robot will address the public on behalf of the politician," Kumar Kanhaiya Singh, Director, Onestand India, said

3 Questions and interactions will be reviewed periodically by a team that will have an answer to common queries updated after every review

4 Doot is equipped with a custom-made servo motor, which enables the full upper body to bend and raise with ease

5 It can also twist itself with 140 degrees of freedom, making it the only humanoid in the country to do so

6 HD cameras are located in the head of the robot, which enables the operator to have a look at the audience and also record the attendees

7 The 4th generation servo motors, which are indigenously manufactured, barely make any noise, and are tested to work in hot Indian conditions for long hours without any breakdown or need for servicing

8 The humanoids are built on an aluminum frame, with industrial-grade components

9 The humanoid robot has 10 axes (joints), which enables it to shake hands or wave at people

In the Tamil Nadu Assembly polls in April, a newly-formed political outfit, India Makkal Munnetra Katchi (IMMK) introduced a humanoid robot for campaigning for the first time. Called 'Doozy', the four-foot-tall robot was also the party symbol

### Quote unquote

So many trees have fallen, and I would like to request everyone to get involved. Just step outside your home and take care of trees planted outside, water the trees and plants. If someone finds an opportunity to plant some saplings, please do so. It would be great for the entire nation, world and the universe  
**Ajay Devgn, actor, on the need to plant trees**

## HOW ANTI-SCIENCE TWEETS COULD FLAG A COVID OUTBREAK

**CORONA  
UPDATE**

**A**nti-science, partisan tweets like 'do not use mask' or 'vaccines are of no use' could flag a Covid outbreak in a particular region, scientists have found, a discovery that can help policymakers and public health officials.

If they see anti-science sentiment on Twitter growing in one region of the country, they can tailor messages to mitigate distrust of science while also preparing for a potential disease outbreak. "Now, we can use social media data for science, to create spatial and temporal maps of

public opinions along ideological lines, pro- and anti-science lines," said Kristina Lerman, lead author and a professor at the Viterbi School of Engineering at University of Southern California. "We can also see what topics are important to these segments of society, and we can plan proactively to prevent disease outbreaks from happening." The study's machine-learning assisted analysis of social media communications offers policymakers and public health officials new tools to anticipate shifts in attitudes and proactively respond.

- Resistance to science, including the efficacy of masks and vaccines, poses a challenge to conquering the coronavirus crisis
- The goal of achieving herd immunity won't happen until a society achieves consensus about science-based solutions, feel experts

## Natalie Reyes to lead sci-fi thriller 'Tomorrow Before After'

'Terminator: Dark Fate' breakout Natalie Reyes will next headline post-apocalyptic sci-fi thriller film, 'Tomorrow Before After'. Filmmaker Alfonso Quijada will write and direct the movie, which will be shot in Colombia later this month, according to Deadline.

■ In the movie, Reyes will play an unnamed woman, who struggles to survive on her own in a post-apocalyptic world, searching for others, with only a stray dog by her side. ■ In her quest, she collides with a world that is collapsed and utterly destroyed, and it seems, for a long time, that she is the only survivor in the world – until she discovers one day that she is pregnant. Not understanding how this could be possible, she then begins to question her own existence

**Entertainment**

## World Yoga Day amid the pandemic

**T**he International Yoga Day was observed across the country and the globe on Monday. Prime Minister Narendra Modi said, the ancient Indian discipline remains a "ray of hope" and a source of strength for the people in the fight against the coronavirus pandemic. Addressing a Yoga Day programme, Modi also announced that in collaboration with the World Health Organisation (WHO), India has taken another important step, as the world is going to get the power of 'M-Yoga' application, which will have many videos of yoga training based on Common Yoga Protocol available in different languages.

## Film on New Delhi's pollution menace part of Cannes Film Festival's new sidebar

**F**ilmmaker Rahul Jain's Delhi pollution documentary 'Invisible Demons' is part of the Cannes Film Festival's new sidebar on climate issues. Titled 'Cinema for the Climate', the new section, will feature one fiction movie and six documentaries, focusing on the issue of climate change, the festival has announced. Jain's 'Invisible Demons' is described as a "shocking documentary" about pollution in New Delhi and the "invisible demons" that are the fine particles.

**MOVIES**

- The five documentaries in the sidebar section are, 'Marcher sur l'eau' (Above Water) by Aissa Maiga (Niger-France); 'Animal' by Cyril Dion (France); 'I Am So Sorry' by Zhao Liang (France - China); 'Bigger Than Us' by Flore Vasseur (France); and 'La Panthere des neiges' by Marie Amiguet (France)
- Alongside the new programme, Cannes has announced an environmental action plan to reduce waste and decrease the festival's carbon footprint
- The 74th edition of the Cannes International Film Festival will be held from July 6 to 17

# Sail into yet another year of online classes

Firstly, big congratulations to each and every parent! The last year presented a lot of challenges, especially in our personal lives, and you adapted. Not only did you adapt, you nurtured your children, fed them, guided them, sorted fights, handled tantrums, entertained them and more! Do not take this accomplishment as a trivial one. As we enter into yet another year of online classes, here are some tips that may make this sail a smooth one.

'Netiquettes', 'Routine management', 'Time management' etc., are some words we kept hearing over the last year. I am not again telling 'what' they are, but instead, wish to emphasise on WHY they are important for the child's personal growth.

## A ROUTINE

Children crave familiarity. They feel secure, have a sense of safety and automatically behave better - because they know what to expect. Routine creates a form of conditioning in their minds; and most importantly (for us), it makes our job easier. Yes, there could be

one-off tantrums or other struggles along the way. Try giving them options, like: 'which outfit do you wish to wear?', 'You can decide the story' etc. Getting their participation or giving choices (on what is flexible) makes them feel respected, empowered, and facilitates better cooperation.

## NETIQUETTES

A 'digital footprint' is a permanent one. What footprints are the students leaving behind? On their social media? In comments? In articles?

Do we ensure our children follow class timing correctly? This is the age habits and attitudes are being imbibed. Do we stick to timing that we set between them? Remember, children learn best through modelling.

Once in a class, parents must refrain from nudging or compelling the child to say a right answer or speak up.

Yes, encouragement and prompts are indeed good, but let us ensure it does not cross over to a place where negative emotions are generated inside the little hearts. When we encourage and emphasise more on their effort rather than just the results, their attitude switches to a 'growth-oriented' one rather than 'a temporary results' oriented one.

A growth oriented attitude is a resilient and optimistic one; it urges them to pick themselves up from small failures and try again.

## CLEAR COMMUNICATION

It is important that we are in touch with their teachers and express our expectations with each other right from the start and follow up. Greater clarity in communication will help the school serve the child much better.

## COVERING UP MISTAKES

Most of us are tempted to do this; we don't want them to get hurt, so we cover up for their faults. I cannot reiterate how important it is that children learn to take responsibility for their actions. They need to learn how to handle a situation confidently and respectfully.

Creating accountability is very important and that can be fostered only when they are taught to acknowledge their mistakes. Please remember correcting a child can be done respectfully (and by implementing consequences) without shaming and condemning the child.

Hannah Masood, Counsellor,  
The Choice School, Ernakulam

# IS UTOPIA POSSIBLE?

MY THOUGHTS FROM THE CHAPTER  
RISE OF NATIONALISM IN EUROPE,  
HISTORY, CLASS X, CBSE

Utopia is a vision of society that is so ideal that it is unlikely to exist. We all like to wander away in our dreamland where everything is perfect and there are no worries. More likely than not our dreams are subjected to personal desires and interests. But Frédéric Sorrieu was no such man, he dreamt of a world of only democratic and social republics while aristocracies were just starting to cripple.

*This got me thinking what would a utopian world look like for a millennial like myself in a socio-political sense?* In my eyes, the government was made to parent

us. Making rules, making sure we follow the said rules and if not penalising us and disputing riots among siblings sound very much like the three organs of the government. But what if they grow up and are mature enough they don't need to be parented? In other words, what if everyone just followed and never broke the

law? The legislature would just make the laws and the citizens would follow it. This eliminates the requirement of the executive and judiciary to quite an extent, saving resources and decreasing taxes. A fair and transparent media would still exist to keep the legislature in check. It is true that such a world will

probably not exist anytime in the near future but that's probably what Frédéric Sorrieu also thought. But he stands corrected as Democracy becomes the norm in today's world. It is practically impossible for everyone to stay lawful all the time, but maybe it is something to hope for?

TANISHKA WAGH, class X, Ganges Valley School, Hyderabad

## QUICK REVISION

(a) In each of the following items, sentence A is complete, while sentence B is not. Complete sentence B, making it as similar as possible to sentence A. Write sentence B in each case.

EXAMPLE:

(O) (A) All nooks and corners were checked.

(B) No.....

Answer: (O) No nook or corner was left unchecked.

1 (A) He is so old that he cannot remember events of the past.

(B) He is too.....

2 (A) As soon as the bell rings, the children run out to play.

(B) No sooner.....

3 (A) No other planet is as big as Jupiter.

(B) Jupiter.....

4 (A) He is forgetful as well as careless with his work.

(B) Besides.....

5 (A) It is probable that the ship will reach the shore.

(B) In all.....

(b) Fill in each blank with a suitable word. (Do not write the sentence.)

1 She turned \_\_\_\_\_ the offer to work at the factory.

2 To everyone's surprise, he turned \_\_\_\_\_ at the party.

3 He broke \_\_\_\_\_ in the middle of his speech at

the function.

4 The burglars broke \_\_\_\_\_ the house when the family was away.

5 He agreed to carry \_\_\_\_\_ the manager's

orders.

6 Sita's daughter carried \_\_\_\_\_ the family business when Sita went abroad.

7 He ran \_\_\_\_\_ from home at the age of ten.

8 I ran \_\_\_\_\_ my old friend in the market place.

9 Her aunt looks \_\_\_\_\_ her aging grandparents.

10 The Principal looks \_\_\_\_\_ matters of complaint from teachers and students.

(c) Fill in the blanks in the passage given below with the appropriate form of the verb given in brackets. Do not write the passage, but write the verbs in the correct order. [5]

One day I \_\_\_\_\_ (1)(be) in the lunch line, and there I saw a pile of apples. The teacher-in-charge \_\_\_\_\_ (2)(stare) at me and said, "Just \_\_\_\_\_ (3)(take) one. God \_\_\_\_\_ (4)(watch)". So, I \_\_\_\_\_ (5)(take) an apple, and the line \_\_\_\_\_ (6)(move) along. At the next table there \_\_\_\_\_ (7)(be) a pile of chocolate chip cookies. I \_\_\_\_\_ (8)(not know) what to do. "Psst," the kid behind me \_\_\_\_\_ (9)(whisper). "\_\_\_\_\_ (10)(take) all you want. God's watching the apples."

# Aim for a higher-order Fluency in English

By the time students reach the senior secondary section, they are expected to have acquired a reasonable degree of language proficiency in English language. The course at this level aims at promoting the higher-order language skills, required for academic study as well as the language skills required for the workplace.

The techniques used for teaching the senior graders should promote habits of self-learning and reduce dependence on the teacher.

So, CBSE recommends a multi-skill, learner-centred, activity-based approach, of which there can be many variations.

## SILENT READING

The core classroom activity is likely to be that of silent reading of prescribed/selected texts for comprehension, which can lead to other forms of language learning activities such as role-play, dramatisation, group discussion, writing, etc., although many such activities could be carried out without the preliminary use of textual material.

## READ INDEPENDENTLY

It is important that students be trained to read independently and intelligently, interacting actively with texts, with the use of reference materials (dictionary, thesaurus, etc.) wherever necessary. It is important to remember that students should be encouraged to interpret texts in different ways. Group and pair activities can be resorted to when desired, although many useful language activities can be carried out individually.

## INTERACTING WITH TEXTS

In general, teachers should encourage students to interact actively with texts and with each other. Oral activity (group discussion, etc.) should also be encouraged to build proficiency in speaking, confidence and stall away fear.

The board has suggested a few sample activities to help teachers in conceptualising an effective teaching model and strategy complementing the objectives laid out in the curriculum.

1 Short review/dramatisation of the story, commentary on the characters, Critical evaluation of the plot, storyline and characters.

2 Comparing and contrasting the characters within the story, with other characters in stories by the same author or by different authors.

3 Extrapolating about the story read or life of characters after the story ends defending characters actions in the story.

4 Making an audio story out of the novel/text to be read aloud.

5 Holding a literature fest where students role-play as various characters to interact with each other.

6 Role playing as authors/poets/dramatists, to defend their works and characters.

7 Symposiums and seminars for introducing a book, an author or a theme.

8 Creating graphic novels out of novel or short stories they read.

9 Dramatising incidents from a novel or a story.

10 Creating their own stories.

11 Books of one genre to be read by the whole class.

The students who are the future of the nation should be well versed in writing formal reports about events or occasions and express opinions, facts, arguments in the form of speech or debates, using a variety of accurate sentence structures.

Sriekala Nair, PGT English, DAV International School, Kharghar

## RECREATE, REINVENT AND REFURBISH

**C**reativity is experimenting, taking challenges, breaking rules, making mistakes, having fun, inventing and learning something in an innovative way. Keeping in mind the overall and holistic development of the students, D.A.V Public School, Thane, conducted activities to unleash the hidden talents of children. Ensuing the vacation in the month of May along with the moods of the children, the activity primarily focused on recreate, reinvent and refurbish, so that they can deploy themselves into something creative, innovative and which

arouse the students' interest. Undoubtedly, it witnessed the swarm of participants in all the fields, whether it was...

1. Solo Vocal (Any non-filmy song)
2. Solo Instrumental (Any musical Instrument; any non-filmy song)
3. Solo Dance (Classical/semi-classical/Folk/Patriotic) or
4. Creative Craft- (Card Making/Origami Article/Craft-Best out of Waste)

The ingenious budding stars of the school veritably showcased a plethora of creative performances. The mandatory participation brought forth

the hidden talents of even those who were not able to recognise their skill earlier. Their interest and novel ideas could be witnessed in their presentations of solo instrumental/ vocal/dance, photo/PDF of Creative Craft. Needless to state that, the children's appreciative effort and their interest would surely continue during vacation as well, which would definitely have a therapeutic effect. Creative crafts and arts provide a platform to hone their potential immensely and the children can surely rejuvenate themselves during vacation.

## Founder's Day Assembly

**S**hri Balaji International School celebrated its 20th Founder's day assembly on 11th June 2021. In spite of the pandemic the school celebrated this day with great fervour and enthusiasm through a Virtual Assembly. Although the assembly was online, our students and teachers were just as enthusiastic and energetic to celebrate the two decade long journey of our school. The event began by remembering The Almighty with a short prayer and was then followed by a presentation that surely brought back memories of the school that has grown from strength to strength, the students who left the portals of

the school and the varied events like the assemblies, inter house and interschool competitions etc., conducted by the school which surely made us and our teachers realise how much our school has grown, over the years. Later, a few photographs of our students practicing and participating in the RSP Competition were also shown. Lastly, Our Principal Mrs. Indira Aarons en-

lightened us with a few words of wisdom. She also told us about how our Vice principal Mrs. Pooja Shringarpure has completed 20 years and she continues to be a pillar of support to the school. The assembly concluded with a closing prayer. Overall, The assembly was a great success and all the students and teachers were glad to participate in this auspicious occasion.

## Express YOURSELF

### SEND THIS LETTER

I leave my town again I said the same old good-byes Everyone knows that this was meant Yet the tears shine in their eyes I sit here alone in the firing Just fighting for my life But if I don't make it Send these letters to my family waiting for my reply Send this letter to my little brother Tell him I will miss his annoying self And even if I said to me he didn't matter I knew I lied to myself For I have always loved you the same Since the day I held you in	my hands And one day I will be back again To once again share those secrets which no one would understand Send this letter to my mother Tell her not to cry too much For she was my support pillar And I don't like seeing her sad as such Tell her to smile when she remembers me Don't let her break down Make her remember of our happy memories Tell her one day I will come back around Send this letter to my	father Tell him to hold his chin high Let him be the rock he had always been for his daughter Let him be proud of the child whose hand he always held by Tell him to be strong as ever Let him always shine brighter than the sunlight Tell him to feel bad for me never For I had fought bravely even in my last fight Send this letter to my best friend Tell her to laugh always Remind her this is not the end	For we created our beautiful memories for such days Tell her to smile at our inside jokes Tell her to keepsake my secrets And maybe remember me while she looks at our photos But never look back at all the regrets Tell them all I shall miss them forever And I hope I had been a good sister A good daughter And a good best friend for her I have loved all of you from the start And death is too weak to break our bonds apart...
--	--	--	--

NOYONIKA SHARMA, class XI, Apeejay School, Nerul

## Peer learning is effective

**"Strive for continuous improvement instead of perfection"**

N.L. Dalmia High School believes in the holistic development of each student. Train your buddy is a unique activity organised by the school that covers areas like poetry, singing, painting, music, acting, dancing, storytelling, science experiments, math concepts and computer skills. These inductions pave the way for well-organized learning and inculcate leadership

qualities among students. The primary students of Grade I to V participated in various activities showing linguistic skills, conserving nature, best out of waste, wardrobe makeover, jewellery designer and junior chef. Train your buddy is a unique digital platform created for the students, that gives them enormous opportunities to showcase their talent. It focuses on creating opportunities for collaboration and learning together.

## WORLD OCEANS DAY CELEBRATION

**'The cure for anything in this Planet is Salt water, Sweat, Tears and the Sea.'**

**W**orld Oceans Day is observed every year on 8th June to create awareness among human beings of the benefits they have enjoyed from the ocean so far. The day highlights the need and necessity to protect oceans from further deterioration.

The United Nations (UN) declared World Oceans Day as an official day of importance in 2008 to not only celebrate the vast water body and its benefits in our lives but also, to raise awareness about what can be done to make it a part of sustainable development.

New Horizon Scholars School has worked on the 2021 theme, 'The Ocean: Life and Livelihoods' to make the students aware of the relevance of oceans and encourage them to help in the conservation and preservation of the lives in the oceans.

All the classes participated in different ways to create innovative methods of Saving Oceans from pollution. The young minds drew ocean beds having flora and fauna on charts and budding enthusiasts made PPTs that were showed in the Special Assembly held for the purpose.

Paper mache models were made by groups of students who explained ways to save the oceans from the potential threat of pollution and eventually, how that can reduce natural catastrophes. Students spoke at length on the theme 'Life and livelihoods' after extensive research work on the same. Teachers encouraged students to participate and celebrate the Day by understanding the responsibilities that each one owes towards saving the Oceans from further damage.

The Special Assembly held online ended with a noteworthy thought and pledge - "No water, no life. No blue, no green." Let's join our hands to save life's matter and matrix, mother and medium...

## COOLEST COPS

**S**ome may call him cocky, goofy and irresponsible, but I see him as a loyal friend, a feminist and an amazing detective/genius. That's Jake Peralta. She's seen as a boring nerd, but actually is the life and soul of the 99th precinct, a kind person and one of the coolest cops I know. She's Amy Santiago. It's easy to be intimidated by mean, scary and mysterious Rosa Diaz, but inside, she does feel love and friendship. I admire her for her realistic and never-say-die attitude. Even her darkest days on the streets when everyone abandoned her failed to break her, instead she emerged tougher than ever before. Yes, 'weak' and 'overprotective' do describe the foodie Charles Boyle, but so do the phrases 'a selfless friend', 'hardworking detective' and 'fun-loving doofus'. The lean, muscular sergeant Terry Jeffords is very sweet, lovable person with a surprisingly gentle and helpful manner. The rule-stickler, lifeless robot Captain Holt turns out to be a really brave, intelligent and caring father figure for the squad. None of these detectives inspire me individually, but I look upto the whole squad. Because these fictional characters taught me that no one is perfect. Everyone is flawed. But the best team is the one which instead of pointing them out, highlights the good qualities. They always have each other's backs, and that's why, they are the Nine-Nine.

Sanisa Patrikar, class X, D.A.V Public School, Thane

**INSPIRING ICONS**  
**COOL COPS ON TV**

Billy Gilmour

# SCOTLAND TURN TO GILMOUR TO BEAT MODRIC

After a 23-year wait to even reach a major tournament, more history beckons for Scotland on Tuesday if they can beat Croatia at Hampden to reach the knockout stage for the first time at Euro 2020

**A** hard-earned 0-0 draw against England at Wembley has restored belief in the Scottish support that had been shaken by a 2-0 defeat to the Czech Republic in their opening match. Victory against the World Cup finalists should be enough to seal Scotland's place in the last 16 as one of the four best third-placed sides from the six groups, should they not pip England into second place in Group D.

## Inspired move to back Gilmour

Steve Clarke's decision to throw Chelsea midfielder Billy Gilmour in for his first international start on the biggest stage proved inspired as the 20-year-old outshone the Three Lions' plethora of Premier League stars to walk away with the man-of-the-match award. At just 5ft 7in (1.7m), Gilmour has had to use his speed of thought and fleetness of foot to become a rising star for club and country. "Scotland have found a playmaker to build around for the next decade," former Scotland captain Graeme Souness wrote in The Times. "A proper footballer who can keep the ball in tight areas and does not give it away."

## Modric not best placed

That description fits perfectly with Croatia's own pass master Luka Modric.

Now, 35, the Real Madrid midfielder still carries his country's expectations on his shoulders. His starring role in Croatia's run to the World Cup final three years ago saw Modric become the only man since 2007 to break Lionel Messi and Cristiano Ronaldo's grip on the Ballon d'Or. However, Modric has so far cut a frustrated figure at the European Championship.

**Nothing fazes him, and that's why I believe he can get as many caps as he wants for Scotland. He's got a huge future ahead of him but the here and now is pretty good as well.**

**CAPTAIN ANDY ROBERTSON, on Gilmour's emergence**

## Croatia lack balance

Like Scotland, Croatia also need to win at Hampden to have any chance of progress to the last 16 after taking just one point from their opening two games. "We're far from how we used to play," said Modric after a 1-1 draw with the Czech Republic on Monday. Without the energy of Ivan Rakitic in midfield and the cutting edge provided by the bulldozing presence of Mario Mandzukic up front, both of whom have since retired from interna-

tional football, Croatia have appeared one-dimensional in their opening two games. "Right now we're not the Croatia we all want," added Modric, who has already played 61 games for club and country this season. "We all have to improve, from the first player to the last."

## Prospects bright for Scotland

Scotland may not have Croatia's experience when it comes coping with the rigours of three energy-sapping tournament games in eight days. But they will have 12,000 of the Tartan Army on their side at Hampden in their quest for history. More importantly, Gilmour's emergence is the latest case of Scottish players having the technical quality on top of the tenacity to compete with the likes of Modric. The future may look bright for Scotland, but after so long away from the top table of international football, there are no guarantees an opportunity like this will come around again.

Before a ball was kicked at Euro 2020, Clarke remarked that his players were already "heroes" but could become "legends" by making the last 16. Many of legendary figure of Scottish football's past such as Souness, Kenny Dalglish and Denis Law, tried and failed to make it beyond the group stage of a major tournament. Less than a month after lifting the Champions League, Gilmour can write himself into national folklore on his first appearance at Hampden. **AFP**

# INDIA PROTEST 'UNFAIR' TOKYO RULES

IOA says Japanese govt's measures for athletes from Covid-hit nations will mean athletes will lose crucial training days

India's Olympic body has slammed as "unfair" strict rules imposed by the Japanese government on athletes from several Covid-hit nations for the Tokyo Games starting next month. Tokyo 2020 organisers said Monday that additional measures will be used to reduce infection risks from several countries, including India, that have seen "significant impact from variants" of Covid-19. The protocols will involve daily testing of athletes for a week before they depart for Japan and for them to "refrain from coming into contact with other teams for three days after they arrive" in Japan.

The Indian Olympic Association (IOA) said the rules would cause athletes to lose three crucial training days. "Athletes are allowed to arrive in the Games village only five days before their

event," IOA president Narinder Batra and secretary Rajeev Mehta said in a joint statement released on Saturday. "Now three days will be wasted, this is the time the athletes need to be moving towards their mode to peak... highly unfair for Indian athletes, who have worked hard for five years, to be discriminated against just five days before the Olympics."

## Training will be impacted

The sports administrators said 11 countries, including India, Pakistan and the UK, would be affected. Where can athletes train? it asked, because "practice/training areas are never empty and athletes and officials of other NOCs are present all the time. Where and when will the athletes have their breakfast, lunch, dinner during these three days, as everyone has food in the

Games village food hall where all athletes and officials of other NOCs (National Olympic Committees) are present all the time," the statement added.

The Tokyo 2020 organisers said in a statement, "For participants from areas such as India that have seen significant impact from variants, it is necessary that they follow more stringent rules than those outlined in the (athletes) Playbook, and are similar to the existing border control measures." The organisers did not clarify whether athletes from the affected countries would be allowed to train in the three days after their arrival. Batra said last week that Indian athletes will be fully vaccinated before the Games, starting July 23. The country has eased some lockdown restrictions in recent weeks as it emerges from a brutal surge in infections and deaths in April and May. **AFP**

## SPONSORSHIP POURS IN

India's cricket board (BCCI) has offered \$1.35 million in financial support to the country's National Olympic Committee, which dropped Chinese sportswear maker Li Ning as its official kit partner citing public sentiment ahead of the Tokyo Games. The BCCI said it hoped the "monetary gesture" would help Indian athletes bring home a record number of medals from Tokyo. Chinese companies have faced a backlash in India since 20 Indian soldiers were killed in a clash with Chinese forces in a Himalayan border dispute last year. Earlier this month, the Indian Olympic Association

(IOA) ended its ₹ 60 million deal with Li Ning two months before it was due to expire after the Tokyo Games. The IOA also received support from MPL Sports Foundation, which came on board as principal sponsor in a deal worth ₹ 80 million that covers the Tokyo Olympics, and Asian and Commonwealth Games next year. The IOA also welcomed JSW Group and dairy product brand Amul as its Tokyo partners last week, each bringing in ₹ 10 million. "We have been negotiating with different firms not just for Tokyo but also for the future events," IOA President Narinder Batra said. **REUTERS**

# GAUFF RELAXED AS SHE PREPARES FOR WIMBLEDON RETURN

Coco Gauff returns to the scene of her Grand Slam breakthrough at Wimbledon later this month but the American says she is not feeling any pressure to repeat her heroics of 2019 when she reached the fourth round as a 15-year-old. Gauff will play at the Eastbourne International as she prepares for another tilt at Wimbledon, cancelled last year due to the COVID-19 pandemic. Now 17 and ranked world No. 23, Gauff said her Wimbledon debut felt like "a long time ago".

"People might expect me to feel pressure going into it, but I don't really feel any pressure," said Gauff, who reached the quarter-final at the French Open ear-

Coco Gauff

lier this month before losing to Barbora Krejickova. "I'm just going to have fun and enjoy it. I don't really want to push myself to compare my result. 'I want to do better than when I first went there. I'm thankful for that experience and it definitely helped me as a player and a person.'"

Wimbledon begins on June 28. **REUTERS**

## QUIZ TIME!

**Q1:** Which team beat Croatia 1-0 in the European Championship for the first time in nine attempts?

- a) Germany ☐ b) England ☐  
c) Denmark ☐ d) Finland ☐

**Q2:** Which Indian cricket legend was inducted into the illustrious ICC hall of fame?

- a) Vinoo Mankad ☐ b) Pankaj Roy ☐  
c) Polly Umrigar ☐ d) Lala Amarnath ☐

**Q3:** Which cricket team currently tops in the ICC
