WEB EDITION

THIS DAY THAT YEAR

JUNE 30

1908: Tunguska Fireball. A giant fireball, most likely caused by the air burst of a large meteoroid or comet, flattens 80 million trees near the Stony Tunguska River in Yeniseysk Governorate, Russia, in the largest impact event in recorded history

1936: Margaret Mitchell's novel, 'Gone with the Wind' published

2019: President Donald Trump becomes the first sitting US president to set foot in North Korea in the Korean Demilitarised Zone meeting Kim Jong Un

WORD WATCH

Incontrovertible: Means not open to question; indisputable. It is derived from a Latin adjective, controversus, which literally means, 'turned against.'

WOULD YOU TRY

Chyawanprash/Haldi ice cream?

A Karnataka-based popular dairy brand has got everyone talking online after launching two new ice-cream flavours, however, not for the reasons they would like. Keeping in mind the health quotient in food products, Dairy Day has launched two new range of ice-cream flavours – Haldi and Chyawanprash – to help boost immunity.

The two new ice-cream flavours, which also have the goodness of amla, honey and dates, haven't really whetted people's appetite, at least not on social media.

Facebook will prompt users when they try to share links

Facebook is tweaking its platform with subtle changes, in response to the public outcry over its decision to not moderate content. One such update will feature prompts that will pop up to let users know if they're about to share the link to an article that was published a while ago.

TECH BUZZ

The pop-up will be triggered, if the article shared was originally published more than 90 days ago, prompting users to rethink whether the content will be relevant to their friends before it appears on their news feeds. The issue of old news had given headaches to online publishers

RISE IN CYBERATTACKS FROM CHINA. OVER 40,000 CASES IN 5 DAYS

Is India prepared to cope WITH SUCH THREATS?

Hackers based in China have attempted over 40,000 cyberattacks on India's Information Technology infrastructure and banking sector in the last five days, a top police official in Maharashtra said. The spurt in online attacks from across the border was noticed after tensions rose between the two countries in eastern Ladakh, said Yashasvi Yadav, Special Inspector General of Police, cyber wing. Fraudulent email ID, such as 'ncov2019@gov.in' was found, which sent bogus information about free Covid-19 testing for residents of Delhi, Mumbai, Hyderabad, Chennai and Ahmedabad, officials said.

X-PLAINED: CYBERATTACK

WHAT In simple terms, a cyberattack is a type of attack that is launched from one or more than one computer against each other. There are broadly two types of cyberattacks: attacks where the goal is to disable the target computer and knock it offline, or attacks, where the goal is to get access to the target's computer data, and perhaps gain admin privileges on it.

WHERE A cyberattack can be employed by sovereign states, individuals, groups, society or organisations; it may originate from an anonymous source as well. Depending on the context, cyberattacks can also be a part of a cyberwarfare or cyberterrorism. A product that facilitates a cyberattack is sometimes called a cyberweapon.

WHY In recent years, countries have resorted to cyberwarfare to attack against one other. While conventional weapons are only allowed to be deployed by a country's military in the realm of cyberwarfare, governments usually deny their association with the hacker outfits. The Chinese government, for instance, has on numerous occasions, denied its role in hacking operations emerging from the mainland.

CYBER WORLD TERMINOLOGIES

MALWARE: According to Microsoft, malware, short for malicious software, refers to any kind of software that "is a designed to cause damage to a single computer, server, or computer network." Worms, viruses and trojans are all varieties of malware. They are distinguished from one another by the means by which they reproduce and spread. These attacks may render the computer and network inoperable, or

grant the attacker root access so that they can control the system remotely **PHISHING:** Phishing is a technique by which cybercriminals craft emails to fool a target into taking some harmful action. The recipient might be tricked into downloading malware that's disguised as an important document **RANSOMWARE:** Ransomware is a form of malware that encrypts a victim's files. The attacker then demands a ransom from the victim to restore access to the data upon payment

INDIA AND CYBERWARFARE

- According to some analysts, India remains highly vulnerable to cyberattacks, made worse by an inability to conduct any counter-offensive operations
- While China has ramped up investment into cyberwarfare and cybersecurity over the years, India has lagged behind. In fact, the country still does not have any dedicated laws around data protection and security. In fact, the Defence Cyber Agency was constituted last year ■ Given India's lack of preparedness, some experts have suggested that bolstering defence part-

nerships with technologically superior allies, like Japan or the United States, or the setup of a defence coalition, may be India's best bet at protecting itself from cyber threats.

- This would allow the country to benefit from real-time information sharing and improved training

ASTRONAUT ACCIDENTALLY LOSES MIRROR DURING SPACEWALK

US spacewalking astronaut added to the millions of pieces of junk orbiting the Earth, losing a small mirror, as soon as he stepped out of the International Space Station for battery work. Commander Chris Cassidy said the mirror floated away at about a foot per second. Mission Control said the mirror detached from Cassidy's spacesuit. The lost item posed no risk to either the spacewalk or the station, NASA said. Spacewalking astronauts wear a wrist mirror on each sleeve to get better views while working. The mirror is just 5 inches by 3 inches, and together with its band has a mass of barely one-tenth of a pound.

While millions of pieces of space debris orbit the Earth, more than 20,000 items, including old rocket parts and busted satellites are big enough to be tracked to safeguard the space station and functional satellites

Out-of-the-box lunar loos

Proper positioning and precision landings are not only the crux of lunar landings, it is very important for lunar loos as well. A small deviation this way or that can cause anything—from an embarrassment to a catastrophe. NASA has, therefore, intensified its activity on astronauts' excretions. After developing a \$23 million 'Universal Waste Management System'—a hi-tech porta-potty—to be tested on the International Space Station, the premier space agency has now announced a contest for a lunar loo. Given that the first lot of astronauts had to make do with little more than plastic bags taped on their posteriors, this effort being made to ease their ablutions now is truly commendable.

The \$35,000 in prize money for the open contest is apparently to tap ideas beyond traditional aerospace engineering concepts, as the toilet will have to function in the microgravity of space as well as lunar gravity, which is one-sixth of what we experience on Earth

Now, a humanoid is a part of a sci-fi movie

Yes, you heard it right. An artificially-intelligent humanoid robot has grabbed the leading role for an upcoming Hollywood sci-fi movie. Titled, 'b', the \$70 million movie will have 'Erica', the eerily human-like android actress, who will play the role of a genetically-modified superhuman, who goes on the run with the scientists who created her....

- > Erica, who made her public debut back in 2015, is the brainchild of roboticist Hiroshi Ishiguro of Japan's Osaka University, who calls his creation the world's 'most beautiful and human-like android'
- > The AI-powered android resembles a 23-year-old woman. While she can't move around by herself, she can tilt her head and blink, sports a sophisticated speech synthesiser, and can use her array of infrared sensors to recognise people
- > According to 'Daily Mail', her first appearance on the silver screen is the result of a deal with Los Angeles-based Life Productions, a firm that specialises in AI artists

CLASS X STUDENTS MAY OPT FOR TAKING EXAM IF NOT SATISFIED WITH RESULT: HRD MINISTER

Union HRD minister Ramesh Pokhriyal has said that CBSE students of class X may opt for taking the exam, if they are not satisfied by the result. Pokhriyal said, "As the remaining class X and XII CBSE exams, which were earlier rescheduled to be held between July 1 to July 15 have been cancelled, the CBSE has decided to declare the results on July 15." The result will be calculated on the exams which have already been given, but the students who think they could have done better if they had taken the remaining exams, may opt for giving exams again. This option will, however, be open for students who have not taken exams for all the subjects," he added.

- The CBSE and ICSE on June 25 told the apex court that the remaining class X and XII CBSE exams, which were earlier rescheduled to be held between July 1 to July 15, in view of the Covid-19 pandemic, have been cancelled. ■ ICSE, on the other hand, told the top court that they might give an option to the class X students to write the exams at a later stage

ENVIRONMENT

MELTING OF ANTARCTIC SEA ICE HAS MADE PENGUINS HAPPIER: STUDY

While human beings are anxious about the decreasing level of ice in the Antarctica, there is one species in particular that has been thriving on global warming. According to a latest research, Antarctica-based Adélie penguin is expected to see a population boom in the coming years, thanks to the decrease in sea ice level that has made it easier for these small birds to survive.

1 The researchers, who studied the penguins for four seasons, in a different sea ice conditions during each season, concluded that the result of sea ice melting can have different effects on different species, highlighting the complexity of climate change effects on wildlife

2 It turns out that Adélie penguins are happier with less sea ice, said researchers, as the increase in sea ice can make it difficult for penguins to walk. Less seawater let them dive as and when they wish, making them happier, they added

SAY NO TO RACISM

NO WHITE ACTORS TO VOICE CHARACTERS OF COLOUR: THE SIMPSONS

The Simpsons' will no longer use white actors to dub the ethnic minority characters, the producers of the long-running animated series said. The decision includes a recurring character from the series launched in 1989—Apu Nahasapeemnetimon, a grocer of Indian origin, voiced in the American version of the show by white actor Hank Azaria. The character has long been seen as problematic, conveying racist stereotypes. The announcement came as Mike Henry, the white actor, who voices the black character of Cleveland Brown in Family Guy, another animated series produced by Fox, announced on Twitter that he was giving up the role.

Americans are in the midst of a reckoning on systemic racism and discrimination, ignited by the killing of George Floyd, an African-American man, by a white police officer in Minneapolis on May 25

ACTIVITY OF THE DAY

History Mystery

1 In January 1962, on the occasion of Swami Vivekananda's birth centenary, a group of people formed the Kanyakumari Committee whose objective was to put up a memorial on the rock and a pedestrian bridge leading to the rock.

Vivekananda Rock Memorial, Kanyakumari

Photo: Milind Kudage

However, this news was not taken in good taste by a sizable population of the local Catholic fishermen. They put up a big Cross on the Rock, visible from the shore. This led to protests by the Hindu population who said the Rock was a place of worship for Hindus. The Government realised that the Rock was turning into an area of dispute with Hindus claiming it to be the Vivekananda Rock and

that the rock was associated with Swami Vivekananda could be put up, and nothing else. With government permission, the tablet was installed on the Rock on 17 January 1963. Vivekananda Rock Memorial was inaugurated in 1970 in honour of Swami Vivekananda who is said to have attained enlightenment on the rock.

Key Monastery, Spiti Valley

Photo: Milind Kudage

2 The biggest monastery of Buddhists in Spiti Valley, Key Monastery is over 1000-year-old. It is the oldest training center for Lamas. It was founded by Dromton, a famous disciple of teacher Atisha in the 11th century. Key Monastery was destroyed by invaders and rebuilt several times. In 1840 it caught fire and in 1975, it suffered extensive damage due to an earthquake. The monastery appears like a fortress. It is famous for its architecture and is known for its ancient murals, rare thangkas (Tibetan Buddhist painting on cotton, silk, usually depicting a Buddhist deity, scene, or mandala), and ancient weapons.

Content and pics by 'History Diaries'. Co-founded by IIT-Delhi alumni, it is an initiative to make history interesting, engaging and relevant, transforming the way it is being taught in schools

GEOGRAPHY

The White Lady

Mont Blanc or the White Mountain is the highest mountain in the Alps and the European Union. This mountain rises 15,781 ft above sea level. Its other names are La Dame Blanche (in French 'the White Lady') or Il Bianco (Italian for 'the White One'). The mountain lies in a range between Italy and France.

IDIOM OF THE DAY

➤ EVERYTHING BUT THE KITCHEN SINK
Meaning: Almost everything and anything has been included.

WORD WISE

Rambunctious (adjective): difficult to control or handle; wildly boisterous

Synonyms: Unruly, turbulent, boisterous, raucous, noisy, tumultuous, energetic, unrestrained, etc

Examples:

- The unruly behaviour of the young boys was too much for the old guard to handle.
- The boat tossed and tumbled uncontrollably in the turbulent waters.
- The boisterous bunch of children brought the whole place alive.
- The disagreement over the result of the match led to a raucous debate between the officials of the two teams.

COMMON GRAMMATICAL MISTAKES

1. ABHORRENT/ABERRANT

THE RULES:

- "Abhorrent" describes something truly horrible
- "Aberrant" is just abnormal.

HOW NOT TO DO IT:

- She said sanitary conditions in the emergency room were aberrant.
- Weeks ago the nation witnessed the culmination of abhorrent fan behaviour.

HOW TO DO IT PROPERLY:

- She said sanitary conditions in the emergency room were abhorrent.
- Weeks ago the nation witnessed the culmination of aberrant fan behaviour.

Guardian School, Dombivli

Since the arrival of the Nov-el Corona Virus, boosting immunity has gained importance like the urge to see a peacock, dance in the rain. Markets are flooded with various types of food and drugs that promise to boost your immune system but what if? there is a 'No touch no drug therapy' that guarantees to boost immune system and aid your body and mind to rejuvenate itself.

This 6th International Yoga Day, celebrated on 21st June, Guardian family under the guidance of its sports team came together with the world to discover, celebrate and lead many around us to the path of Yoga. The school celebrated Yoga day with students, parents and teachers performing 'Yoga' together through virtual meet.

Though apart, as the body in sync during Yoga, we found our Guardian family come into alignment. The youth of today has really taken many of us by surprise when you see them practicing these simple to intricate yoga poses and enjoy it, bringing joy to the inner and outer self.

Yoga really helps to align one's body and mind but also as a community.

Yoga means 'Union', hope, we all stay united in this outlandish situation.

SCHOOL IS COOL

Start your day with YOGA

Sharada Gyan Peeth International School

In these dark hours of the pandemic, Sharada Gyan Peeth International School, decided to celebrate the 6th International Yoga Day on June 21 with a difference. Like every year the event was celebrated with great zeal and enthusiasm, but this time it was online.

The theme adopted was 'Yoga at Home' and 'Yoga with Family', reflecting upon the need to maintain social distancing which is becoming the new norm. The event was conducted online by the Physical Education teachers, keeping in mind the current pandemic situation in the country. The event began at 8 am, with a prayer followed by some breathing exercises.

The teachers also demonstrated a few asanas, which the children were told to perform under the guidance of their parents at home. They were also told about the benefits of doing these asanas regularly.

The principal of the school Anita Sahu and a school trustee M K Chabey graced this event with their presence and encour-

aging words.

The students, parents and teachers of the school participated enthusiastically in spite of the difficult and stressful period that each and every one is facing due to the existing Covid pandemic. Yet nothing could stop them from contributing towards making this event a grand success.

New Horizon Scholars school, Thane

Success is the sum of small efforts, repeated day in and day out. A journey of an educational institution is an arduous and relentless one. From its inception New Horizon Scholars school, Thane has taken up the herculean task to groom batches of students holistically to nurture and hone their skills and bring out their potentials to the fullest. This has been continuing for years now and every year the school is growing a year older with more experiences and learning in this field.

To celebrate the success of this never ending journey, a special day is dedicated and New Horizon Scholars School Thane is no exception. It celebrated its 7th anniversary last week.

Covid 19 crisis did not deter the school from celebrating the day with pomp and zest. In the words of regional director, Dr. Jyoti Nair, "There are memories that time cannot erase, the nostalgia which I want to unveil to the new students, are attached to my memories from its very inception. And humans, not places, make memories so I extend my heartfelt thanks to the teachers,

non-teaching staff above all, the management of New Horizon Scholars School for making our dream come true, for making this day every year more and more special".

Each part of the frame in the video spoke volumes on the activities of the school throughout the academic year 2019-2020, starting from a trek to Borivali's 'Kanhari caves' to 'Trip to Imagica', from 'Marathi, Sanskrit or Hindi Diwas celebrations to 'Shashwatam' an innovative 'way of

cooking without fire'. From inter-school competitions to inter-college competitions and from Investiture ceremony to Annual function.

From Classes being conducted online to students busy in art and craft work and household chores, New Horizon Scholars school Thane did not leave any stone unturned on this special day.

St. Joseph's Convent International School, Bandra

Yoga is a group of physical, mental, and spiritual exercises which originated in ancient India. The Indian government initiative to have a special day dedicated to yoga for both children and adults is marked on June 21st every year as International Yoga Day. Over the last few years, Saint Joseph's Convent International School has been celebrating yoga day with a lot of zeal and zest.

Unfortunately, this year due to the covid-19 pandemic lockdown, the school was unable to have a yoga session as always. However, this did not dampen the spirit of St. Joseph's Convent International School as all students were instructed to and religiously performed the different yoga asanas in the safety of their homes.

Stacey Viegas, class X, St. Joseph's Convent International School, Bandra

N L Dalmia High School

N L Dalmia High School celebrated International Yoga Day with Grade 1 on 21st June to bring peace, harmony, happiness and success.

This was a great opportunity to imbibe the value of discipline. Yoga is a mental, physical and spiritual practice that needs to be carried every day. Children got the

chance to know yoga embodies unity of mind and body.

Students with our yoga teacher Ms. Mrinalini performed different yoga postures like Surya namaskar, Omkar chanting, finally ended with Pranayama and meditation.

Regular practice of yoga will surely help our students achieve a better life, physically, mentally and spiritually.

Rock The Test

Want to boost your general knowledge? Take this exciting test. Rest assured, it will really test you!

Q1: From which city did Mangal Pandey lead the revolt of 1857?

- A: Delhi
- B: Jhansi
- C: Barrackpore
- D: Kanpur

Q2: Who was the governor-general during the Revolt of 1857?

- A: Lord Canning
- B: Lord Irwin
- C: Lord Lytton
- D: Lord Willington

Q3: Who was a prominent leader in Lucknow during the Revolt of 1857?

- A: Begum Hazrat Mahal
- B: Rani Laxmibai
- C: Kuar Singh
- D: Bahadur Shah Zafar

Q4: Name the poet who wrote the famous poem 'Jhansi Ki Rani' about Rani Laxmibai.

- A: Subhadra Kumari Chauhan
- B: Sarojini Naidu

Q5: Who among the following British officials suppressed the Revolt of Jhansi?

- A: Henry Lawrence
- B: Henry Havelock
- C: Colin Campbell
- D: Hugh Rose

Q6: In which city did Rani Laxmibai die during the revolt?

- A: Jhansi
- B: Gwalior

Q7: Which city marked the beginning of the Revolt of 1857?

- A: Jhansi
- B: Barrackpore
- C: Gwalior
- D: Meerut

Q8: One of the effects of the Revolt of 1857 on the East India Company was that...

- A: It was strengthened with more administrators
- B: Crown of England recognised it
- C: British Crown surrendered
- D: It was dissolved

HISTORY
Theme: First War of Independence

ANSWERS: 1. C, 2. A, 3. A, 4. A, 5. D, 6. B, 7. D, 8. D
