Teen agents of climate change from India, Vinisha Umashankar and Aadya Joshi, talk to Times NIE after winning the Children's Climate Prize 2020, on their future call of action...

**CHANGEMAKER PRIZE**

**AADYA JOSHI**  
Grade XII, American School, Mumbai

**THE INNOVATION:** To raise awareness on the importance of native plants and how they affect the eco-diversity of a region.

**ON WINNING:** It is an emotional moment to me, as I am representing the country at such a large platform. Moreover, seeing that our ideas are being recognised and felicitated gives me immense pleasure. I am happy that with more knowledge about native plants, the birds, insects and butterflies will be back. I wish to spread the message further by associating myself with organisations that do large scale plantations in India, so that they plant native saplings. Also, I plan to complete my documentation of database of native plants and hold more workshops for schoolkids.

(As told to MALINI MENON)

**TIMES NIE BROKE THE NEWS FIRST**

Three Indian students have made it to the final list of the Children's Climate Prize 2020 to be held on November 18

**A 'Green' thumbs up for INDIAN TRIO**

Times NIE has constantly endeavoured to encourage young minds to fulfil their dreams towards becoming the changemakers of tomorrow. Share your ideas, innovation and projects at [toinie75@gmail.com](mailto:toinie75@gmail.com)

Send your entries before **NOV 10**. Best entries will be published on **NOV 13**, Children's Day Special Edition!!!

**CLEAN AIR PRIZE WINNER**

**VINISHA UMASHANKAR**, Class IX, SKP Vanitha International School, Tiruvannamalai, TN

**THE INNOVATION:** Solar ironing cart that would change the source of the fuel used currently— charcoal.

**ON WINNING:** It is incredible that the solar ironing cart has won the Children's Climate Prize 2020, fittingly in the Clean Air category. Using charcoal for ironing clothes is insane. A tree produces a day's supply of oxygen for five persons. Cutting trees results in decreased supply of oxygen. Every tree saved from becoming charcoal is good for all of us.

**'DARED... CARED... NOW, WE WILL ACT'**

“Don't feel let down when the resources aren't there. Living in a village, I searched for everything online and while I had to patiently wait for it, it was worth the wait. Identify the problems and make efforts to fix them”

“Have clarity in idea, pursue it step by step. While communicating the thought, keep answers ready for uncertain questions that may be posed regarding the project. Even if adults don't take you seriously, be persistent till they are forced to focus on your idea rather than your age”

**TAKE DANCE LESSONS FROM MADHURI DIXIT-NENE ON SHORT-VIDEO APP CHINGARI**

India's home-grown short video sharing app Chingari has partnered with Madhuri Dixit-Nene's online dance platform, DanceWithMadhuri. The move will provide Chingari users access to dance lessons and latest videos by Madhuri and other dance gurus and choreographers, including Pandit Birju Maharaj, Remo D'Souza, and Terence Lewis.

Chingari allows users to create and upload videos in more than 20 languages. The app has seen a massive jump in users since the ban on TikTok, and has clocked over 30 million users in India as of September

**CELEB LESSONS**

➤ It will inspire users to learn and showcase their art with the best choreographers and gurus ➤ The users will also have access to new conversations to stay updated with every video

**DUA LIPA TO BRING VIRTUAL 'STUDIO 2054' GIG TO INDIA**

**MUSIC**

International pop star Dua Lipa is all set to bring her virtual show, Studio 2054, to India, adding that she hopes to be back to the country and perform before a live audience again. Studio 2054 is said to deliver a brand new multi-dimensional live experience.

\*Shot live in a massive warehouse location, Studio 2054 catches her move through custom-built sets, roller discos, and ballrooms. Accompanied by a cast of musicians, dancers, skaters, aerialists and acrobats, the singer will be joined by a host of surprise superstar guests in the show

➤ Featuring tracks from 'Future Nostalgia', 'Club Future Nostalgia' and her debut album, Studio 2054 is a musical blend of the past, present and the future

**'UNEXPECTED' MOLECULE SPOTTED IN TITAN'S ATMOSPHERE**

NASA scientists have discovered a molecule in Saturn's moon Titan's atmosphere that has never been detected in any other atmosphere. In fact, many chemists have barely heard of this molecule called cyclopropenylidene, or C3H2, made of carbon and hydrogen.

➤ This simple carbon-based molecule may be a precursor to more complex compounds that could form or feed possible life on Titan, according to scientists.  
➤ Astronomers have so far found C3H2 only in clouds of gas and dust that float between star systems – in other words, regions too cold and diffuse to facilitate many chemical reactions

➤ The largest of Saturn's 62 moons, Titan is an intriguing world  
➤ Unlike any other moon in the solar system – there are more than 200 – Titan has a thick atmosphere that's four times denser than the Earth

**FACTOID 100 BILLION**

The number of messages that is being delivered each day on Facebook owned-WhatsApp, claimed Mark Zuckerberg, the CEO of Facebook. According to a data from Statista, as

of October, WhatsApp has 2 billion active users on a monthly basis whereas Messenger has 1.3 billion active users. Earlier in January, WhatsApp hit 5 billion downloads on Android devices, thus, making it the only second non-Google application to reach this milestone

**ANITA ANAND'S JALLIANWALA BAGH STORY SHORTLISTED FOR HISTORY PRIZE**

British-Indian journalist and author Anita Anand's book that tells the story of a young man caught up in the 1919 Jallianwala Bagh massacre in Amritsar has been shortlisted for a prestigious history-literary prize in the UK.

**SHORTLISTED**

The book, 'The Patient Assassin: A True Tale of Massacre, Revenge and the Raj' will compete with six others for the PEN Hessel-Tiltman Prize for History 2020, awarded annually for a non-fiction book of specifically historical content.

It is a story of an orphan Udham Singh's 21-year quest for revenge that takes him around the world in search of those he held responsible for the Raj-era Amritsar massacre of April 1919, executed by the British troops during a Baisakhi gathering in the Jallianwala Bagh grounds

**Can small gatherings SPREAD COVID-19?**

**PANDEMIC LIFESTYLE**

With the onset of the festive season, experts have warned that even small gatherings can increase the risk of Covid-19. Adequate precautions should be taken during Diwali and Chhath, which will see a surge in gatherings, they add.

**HOW SMALL SHOULD BE A SMALL GATHERING?**

There is no clear definition as to what number defines a 'small' event, but medical experts suggest that a gathering of 5-6 people (at maximum) is considered as a small get-together. The gathering also depends on the size of the room and ventilation. Depending on these measures, in some cases, even 2-3 people present could imply a small gathering, say experts

**WHY IT CAN BE PROBLEMATIC?**

➤ Indoor spaces, coupled with poor ventilation can make for a bad combination, which could fuel Covid-19  
➤ Asymptomatic carriers can also act as silent spreaders, who could spread the viral infec-

**HOW TO MANAGE**

➤ Wear a mask and maintain social distancing.  
➤ Timing is also a crucial factor, which can determine your Covid risk during the festivals.  
➤ Remember, the more time you spend at the gatherings, the higher is the risk of contracting the virus and fuelling transmission  
➤ So, avoid spending more than 1-2 hours at gatherings.

**PRECAUTIONS**

➤ If you do happen to host a small gathering, remember to make the space safe for you and your guests. ➤ Disinfect surfaces, demarcate areas to avoid close contact. It might seem very festive, but taking temperature checks, sanitising people coming from outside can be a good way to ensure safety and hygiene ➤ Mask wearing, hand hygiene should be practised at all costs

tion, warn experts ➤ Simple acts like talking or singing can also spread the virus, they add ➤ There's also a possible risk factor to consider if you have guests coming in from different places or cities, as compared to the same area

**THE SUPERSTAR WHO DEFINED BOND**

Sean Connery, who died on Saturday, was one of Britain's greatest film stars, earning worldwide fame and adoration for playing the iconic secret agent 007, James Bond. The Oscar-winning actor will always be associated with his smooth, Scottish-accented portrayal of the suave spy.

**OBITUARY**

➤ The first actor to utter the unforgettable "Bond, James Bond", Connery made six official films as novelist Ian Fleming's creation, giving what many still consider as the definitive portrayal

➤ He starred as Bond in 'Dr. No' (1962), 'From Russia With Love' (1963), 'Goldfinger' (1964), 'Thunderball' (1965), 'You Only Live Twice' (1967) and 'Diamonds Are Forever' (1971) ➤ He made a comeback as the British spy in the unofficial 1983 film, 'Never Say Never Again'

➤ Connery won the 1988 best supporting actor Oscar for his portrayal of street-wise policeman Jim Malone in 'The Untouchables'

➤ Wearing full Highland dress, including a tartan kilt, Connery was knighted in July 2000 by Queen Elizabeth II at Edinburgh's Holyrood Palace

➤ He also received a BAFTA lifetime achievement award in 1998 for his contribution to the world cinema

## UNEXPLORED MUSIC TRENDS

## INDIANS MUST CHECK OUT

**D**o you remember the times when people used to go to various music stores to find cassettes and CDs of newly released albums? While they might not have necessarily liked every single song of an album, they would stay patient and explore, until the next album arrived. Whereas in this era of technology advancement, we have quick access to watch and listen to anything we want.

Various online platforms and streaming services have made the process so easy and user friendly that we can change the song/sound-track with just a single click on the screen.

This revolutionary era comes up with a drastic change in human behaviour i.e. a shorter attention span. But on the other side, it brought up greater opportunities for emerging talents like never before. It allows artists to release albums on their own without sharing the royalty to the labels.

So, we have thousands of innovative artists and genres to explore, especially in our country where 80 per cent of entertainment streaming media is just about Bollywood songs.

## BIOMUSIC

**B**iomusic is a form of experimental music, which deals with sounds created or performed by non-humans. The definition is also sometimes extended to include sounds made by humans in a directly biological way. For instance, music that is created by the brain waves of the composer can also be called biometric music as music created by the human body without the use of tools or instruments that are not part of the body. Some composers such as Roger Water (Pink Floyd) and Ron Geesin have been using Biometric's elements.

## BODY PERCUSSION

**H**ave you wondered that clicking the fingers, patting the chest, clapping the hands and stamping the feet can produce enough variety of sounds that one can form a band and create music. This is called 'Body Percussion' and traced back to the mines of South Africa, where miners communicated using sounds. Have you seen a group of people working together to produce the same rhythm? It's unifying, electrifying and yet unexplored. The most famous body percussion ensemble is the United Kingdom percussion group Stomp. Stomp performs in a musical genre known as trash percussion.

## THEREMIN

**O**riginally known as Thereminvox, it is an electronic musical instrument controlled without physical contact by the thereminist (performer). It is named after its inventor, Leon Theremin, who patented the device in 1928. Just like it sounds like a science fiction movie, it's worth exploring though. The sound of the instruments is often associated with an eerie situation. Theremin has been used in movie soundtracks such as Miklos Rozsa's 'Spellbound' and 'The Lost Weekend' as well in theme songs for few TV shows.

## PAN

**P**ans are a musical instrument originating from Trinidad and Tobago. Drums refer to the steel drum containers from which the pan are made; the steel drum is more correctly called a Steel Pan as it falls into the idiophone family of instruments and so is not a drum which is a membranophone. Steelpan musician are called Pannist. Steelpans were introduced to the genre of Jazz Fusion by the player such as Dave Samuels.

## LEGUMES

**1** Legumes like lentils, chickpea and beans have a substantial amount of zinc. 100 grams of cooked lentils contain 12 per cent of the daily recommended value of zinc. But legumes also have phytates, which inhibit the absorption of zinc and other minerals. That is why zinc from legumes isn't well absorbed as zinc from other sources. Legumes are also a rich source of fibre.

## PEANUTS

**2** Peanuts are a cheap and tasty source of zinc. Easy to include in your daily diet, peanuts are everyone's favourite. You can sprinkle some on your salad, spread peanut butter on apples or bread or simply enjoy them alone. **These are an important source of zinc for people who follow a strict vegetarian diet.**

## CHICKEN

**3** Along with many other important nutrients, chicken also provides you with a decent amount of zinc. You can have chicken soup, grilled chicken or some chicken tikka to get your daily dose of zinc and protein too.

## HUMMUS

**4** Hummus contains a decent amount of this immunity-boosting nutrient. To add more hummus to the diet, you can use it as a sandwich spread or have it with chips. Hummus is also rich in antioxidants, fibre and various other nutrients.

## EGGS

**5** Eggs have a moderate amount of zinc and can help you meet the daily target. An egg contains 5 per cent of the daily recommended value. One large egg has 77 calories, 6 grams of protein, 5 grams of healthy fats and various other minerals and vitamins, including selenium and B vitamins.

## QUIZ TIME (MIXED BAG)

- Q.1) What's the colour of a mirror?**  
A. Green B. Red  
C. Yellow D. Blue
- Q.2) Who was known as the 'Whip of the God'?**  
A. Taimur B. Attila  
C. Balban D. Alauddin Khalji
- Q.3) Akbar borrowed the concept of Mansabdari system from which country?**  
A. Mongolia B. Turkey  
C. China D. Egypt
- Q.4) What is Xeriscaping?**  
A. Landscaping related to save water  
B. Landscaping using bonsai plants  
C. Landscaping using organic manure D. All of these
- Q.5) A temperature at which both Fahrenheit and the centigrade scales have the same value?**  
A. - 40 degree B. -30  
C. -20 D. -10
- Q.6) At which place did Mahatma Gandhi start Satyagraha in India?**  
A. Tumkur B. Kheda  
C. Satara D. Champaran

MITANSHU SARKAR, class IX,  
DPS E-City, Bengaluru

## ANSWERS

1. A) Green 2. B) Attila 3. A) Mongolia 4. A) Landscaping related to save water 5. A) - 40 degree 6. D) Champaran, Bihar

## Indoor plants that are safe for pets

**I**f you are a pet parent who loves to have a little greenery at home but feel scared thinking if they could be toxic for furry friends, we have you covered. Here are a few plants that are not only easy to maintain, but also safe for pets.

## Ponytail Palm

Not only does the ponytail palm look like a miniature tree inside the house, it is non-toxic to your pets and is super easy to grow. This plant makes for a lovely indoor plant.

## Zebra Haworthia

Also known as zebra cactus, you can have your pets around this one as it makes for a great indoor table-top plant. Thanks to its striped appearance, this succulent is easy to maintain.

## Calathea

With different variegated patterns, calathea makes for an excellent indoor and pet-safe plant. This instantly lights up the room and is used as foliage.

## Stromanthe Triostar

This pretty plant's leaves and bark are non-toxic, making it safe for all kinds of pets. It adds a hint of colour to your space, thanks to its pink foliage.

## THE EDUCATIONIST TRANSITION IN EDUCATION

POONAM ARORA, PRINCIPAL, BOMBAY CAMBRIDGE INTERNATIONAL SCHOOL

**C**ovid-19 has brought a paradigm change in the teaching-learning process. This sudden shift towards online learning has indeed been a Herculean task. But our teachers, well versed with the chalk-and-talk method, quickly adapted and online lectures began in no time. Apart from the efforts of teachers, I am extremely impressed our responsible students who made lectures interactive. Students' enthusiasm coupled with support of parents has made this online learning process

Teachers were never trained for this kind of pedagogy. It took some effort to familiarise with technology. We are using online evaluation platforms like Google Forms, Google Classroom, etc for testing students

Poonam Arora, Principal

very beautiful for all the stakeholders.

### Challenges in the process

Teachers were never trained for this kind of pedagogy. It took some effort to familiarise with technology. Since there is no physical interaction with the students, it gets difficult at times.

Curbed social interaction affects the psychology of the child. But we at Bombay Cambridge do not fret about problems, instead we find solutions. We conducted all major events online to maintain some sense of normalcy. Network connectivity problems hinder learning sometimes but we have to live with these. Teachers and students have faced these challenges with determination in such unprecedented times.

### Impending exams

We are using online evaluation platforms like Google Forms, Google Classroom, etc for testing students through objective questions. To make the process more personalised, we have involved parents in evaluating kindergarten kids. This collaborative experience between the teachers and parents has led to greater involvement of parents in their children's learning. It has been an exhilarating journey and we wish to improve it further in future.

(As told to Tejaswree Sonawane, class XII, St. Xavier's College, Mumbai)

## Express YOURSELF

### ONLINE EXAMINATIONS

**S**witching from books to computers, pencils to keyboard keys, white board to PPTs, Question papers to online exams.

Such a huge change over! In our current global situation exams might not seem a priority. But, they definitely help us measure our knowledge.

When I first heard that our exams are going to be held online I was chilled to the spine. But, as I attended my first online exam on Microsoft Forms I breathed a sigh of relief.

Online exams are very beneficial as they are completely based on con-

ceptual understanding. No more memorising or cramming long answers now. I have been more attentive during my lectures. I go through the lessons from my textbooks thoroughly. PowerPoint pre-

sentations by my teachers gives me in-depth understanding of the topic.

I feel really benefited from the new circumstances. I feel less stressed about examination hall, lengthy question paper, long answer questions, students sitting alongside etc. I have never been so stress free in an exam in all my life.

The strangest but best part of all - Me sitting on my chair, in my comfort zone, wearing my comfortable clothes to take my exams.

'Do not panic, just revise and organise!'

Heer Khatri, class V, B K Birla Public School, Kalyan

When I look up at the sky,  
Very very high, I see  
clouds so white,  
And sun very bright.  
When I look down in the sea,

### WHEN I LOOK AT THE WORLD

Very very Deep, I see coral and  
sea horses,  
And colorful fishes.

When I look upon the  
ground,  
Very very big, I see trees  
and fruits,  
And animals n birds so cute.

ZEESHAAN ALI, class III, Delhi Public School, Panvel

# NAVRATRI CELEBRATION

### NEW HORIZON SCHOLARS SCHOOL, KAVESAR

**N**avratrī is a festival that spans nine nights (and ten days). Celebrations include worshipping nine goddesses in nine days. On the final day, called the Vijayadashami or Dussehra, the statues are either immersed in a water body such as river and ocean, or alternatively the statue symbolizing the evil is burnt with fireworks marking evil's destruction.

This occasion calls for a celebration in New Horizon Scholars School too and the students took this opportunity to express how God wins over Evil in multifarious ways. Dance on the famous 'Ayigiri Nandini' began the virtual show to follow with the melodious Bengali song, 'Bajlo Tomaar

Alor Benu', followed by Dandiya by the students in multihued, vibrant dresses. Each depicting a particular cult keeping the theme intact.

Power Point presentation on Dussehra.. towering effigies of Ravan, symbolising evil being burnt with fireworks, marking evil's destruction were presented by students.

The most beautiful depiction through all the programmes was the Unity in diversity, through Good over Evil. In the words of the Regional Director, Dr. Jyoti Nair, "In the Pandemic, the desire of these children was spoken through one common language, the language of Love for humanity, the language of Hope and Optimism, the language of the Win of The Good over Evil"...

### RYAN INTERNATIONAL SCHOOL, CHEMBUR

**R**yan International School, Chembur celebrated Garba day virtually on Zoom. It is Ryan Culture to celebrate each festival with pomp and enthusiasm and our students never miss a change to dance. During the pandemic and the subsequent lockdown have kept festival celebrations low, Ryanites played live Garba online. The students participated and danced nonstop with Zeal and excitement. They were all dressed up in their traditional Garba custom. Nothing can hamper the spirit of togetherness celebration going on by maintaining social distance.

### HOLY ANGEL'S SCHOOL, PRE PRIMARY SECTION, DOMBIVI

LATHA NARAYANAN, TEACHER

**H**oly Angels' pre-primary section (Angels' Paradise) made eco-friendly dandiya sticks during their virtual class. To make the dandiya sticks, they used papers, colorful ribbons, thread and beads. Teachers guided the children and the parents helped them to make the dandiya sticks. The children wore dress ac-

ording to navratrī colour code. Teachers explained the importance of Navratrī to the children followed by dandiya raas played by the Angel-ites.

It was a visual treat to see their students dance gracefully. The school thanks parents for being their throughout the programme and of course to the hard work put by the teachers and the school in bringing this programme to a complete 'virtual' success!

### NARAYANA E-TECHNO SCHOOL, BORIVALI

**D**ussehra the festival which signifies the triumph of good over evil was celebrated with great pomp virtually today at Narayana e-techno School - Borivali. Children and teachers were dressed up in traditional attire.

A video was played showing the defeat of Mahishasura and the nine forms of Goddess Durga was shown. A mesmerising Rama Leela skit was performed by Class 2 children which was followed by Toran making activity and the festive spirit and zeal remained till the end of the session as all the children including the parents started playing garba.

### GUARDIAN HIGH SCHOOL & JR. COLLEGE, THANE

**G**uardian High School & Jr. College always believes in moulding students into true and responsible citizens. They inculcate emotions towards their fellow members of the society. As a part of this our students of std XII enacted a virtual docudrama which depicted nine goddess and a similarity of the current women. The docudrama started with a boy describing the greatness of the nine goddess "Navdurga." And he also explained the reason behind celebrating the nine days, 'Navratrī'. In the second scene of the drama Goddess expresses their importance and at the same time the current women reveals theirs in the same field. Like Goddess Lakshmi as Woman Entrepreneur, Goddess Baitripurasundari as a student, Goddess Sarasvati as a teacher, Goddess Lalita as a doctor, Goddess Durga as female Police, Goddess Mahisasuranandini as a female military officer, Goddess Gayatri as a leader, Goddess Annapurna as a mother, and Goddess Rajarajeswari as an all-rounder. They elucidate how they are serving in this various fields and bringing name and fame to the nation. They also enlightens that they are the strong pil-

lars for the political, social and economic development of the country even after successfully taking care of their family. In short today's women are all-rounders who are capable of managing everything in one single time. The act was concluded with another boy shares his opinion and respect towards women. He expressed his anguish stating that as a man he cannot even think of doing at least three tasks at a time but yet they dominate women. Men have a false belief that they can do anything but actually they are totally dependent on women.

"Women are the real architects of the society." If one can't support them one should not be a hurdle to them at least.

The event was ended with lots of appreciation from heads of the institution.

### NARAYANA E TECHNO SCHOOL, KALYAN

**K**eeping the festive spirit alive, virtual Dussehra was celebrated on 23rd October at Narayana e techno School Kalyan branch. A spectacular puppet show of scenes of Ramayana was presented by E kidz teachers. E-champs and E- techno department performed various activities including speeches on Dussehra, Poetic Ramayana and a dance on Hanuman Chalisa glorified the occasion. The tiny tots were attired in the costumes of Lord Ram, Lakshmana, Sita Mata, Hanumaan ji and wanan Sena. The primary objective of the entire show was to convince the students that no matter how intelligent a person is, his pride will be the reason of his collapse. They were informed that Ravana was basically very intelligent. His knowledge was equal to the knowledge of ten heads. His ten heads are symbolic of his great wisdom. They were intimated how his single mistake overpowered and nullified his entire wisdom. The tiny tots enjoyed the activity of making puppets. The teachers prepared the students as Lord Rama and Sita by painting their faces.

The principal Savita Rathi blessed the participants and students and inspired them to follow the path of truth.

### BK BIRLA PUBLIC SCHOOL, KALYAN

**T**he festival of Dussehra brings good fortune and prosperity to everyone. The Pre-Primary section of BK Birla Public School, Kalyan had a virtual celebration of the festival of Dussehra and Navratrī on 23rd October. Several activities were arranged for the tiny tots to create awareness about the festival and to inculcate good values in them. The puppet show based on the epic of Ramayana kept the kids glued till the end.

The most awaited moment of the celebration was the live virtual garba in which the kids along with their family members dressed in traditional attire and participated in the joyous moment and danced their heart out.

# 5 MOST CONSISTENT BATSMEN

From high order batsmen displaying mesmerizing stroke-play to ability-hitters coming in with all their weapons, this IPL has produced some good batting, with more to come

**471**  
RUNS IN  
**13**  
GAMES

**SHIKHAR DHAWAN (DC)**

Shikhar Dhawan struggled in the preliminary stage and faced criticism for his gradual batting. However the Delhi Capitals opener bounced back with scintillating batting performances. With 471 runs in 13 matches, Dhawan is the second most run-getter this IPL. The sole batsman to hit again-to-again centuries, Dhawan turned the tide in his favor against Mumbai Indians with an unbeaten 69. He then scored a 57 off Rajasthan Royals and two back-to-back tons against CSK and Kings XI Punjab positioning him among high scorers. He is averaging over 52 at a strike fee of over 147.

**444**  
RUNS IN  
**13**  
GAMES

**DAVID WARNER (SRH)**

David Warner smacked a scintillating 66 off simply 34 balls off Delhi Capitals, guiding Sunrisers Hyderabad to a 88-run win and keeping their play-offs hopes alive. The knock helped Warner to the third spot of high scorers. The Orange Cap holder within the final season, Warner so far has scored 444 runs in 13 matches, including three 50s. Playing responsibly without compromising recreation, Warner, at sixth place, attained runs at a strike fee of over 134.

**431**  
RUNS IN  
**13**  
GAMES

**VIRAT KOHLI (RCB)**

Since 2016, Royal Challengers Bangalore skipper Virat Kohli has shown consistency and sophistication. This season he has proved why he's thought to be one of the best within the fashionable period. With 431 runs in 13 matches so far, he is fourth highest-run getters so far. Virat, who can be highest run getter of all seasons, has three fifties and highest rating of 90\*. With RCB eying their maiden IPL title, Kohli will be firing with the bat.

**401**  
RUNS IN  
**12**  
GAMES

**FAF DU PLESSIS (CSK)**

Everything went incorrect for CSK this IPL season. But amid the doom and gloom, one silver lining has been the efficiency of their high order batsman Faf du Plessis. The former Proteas star has been constantly scoring for CSK and presently finds himself in fifth place on the very best run getters checklist. With 401 runs in 12 matches, he has scored at a strike fee of over 140. He has 4 fifties so far this season and a highest rating of 87\*.

**641**  
RUNS IN  
**13**  
GAMES

**KL RAHUL (KXIP)**

Leading the run charts by a good bit, Kings XI Punjab skipper KL Rahul has been at a totally different consistent stage. All the opposite batsmen have simply been enjoying catch-up with Rahul with the 28-12 months-outdated hitting a purple patch to maintain the orange cap firmly on his head. With 641 runs in just 13 matches, Rahul has scored runs at a stupendous common of over 59 - the very best within the event. With 5 fifties and a century already to his title, Rahul is means ahead of his opponents. His greatest efficiency so far was against Royal Challengers Bangalore, with a scintillating 132\* off 69 balls, the best this season. Rahul has a strike fee of over 132.

## SRH bowlers deserve all the credit, says captain Warner

**S**unRisers Hyderabad's (SRH) bowlers deserve all the credit for the team's run of victories in the Indian Premier League, captain David Warner said on Saturday. SRH beat Royal Challengers Bangalore (RCB) by five wickets on Saturday, and it was the third consecutive occasion that they had restricted a team to a total below 135 runs. RCB were restricted to 120 for seven wickets in 20 overs. ANS

Coming into this game, we knew we had to beat the top two teams in order to progress. We got one more to go against Mumbai. We have worked out how to go about at the top of the order. With the bowling, all the credit goes to them. We are finding the right balance and the right partnerships. To go for less than 20 in four overs, it's ridiculous. David Warner, SRH Captain

## THERE ARE LOTS OF FLAWS IN OUR GAME

## Neymar out until mid-November at least, says Thomas Tuchel

Paris St Germain's Brazil forward Neymar will be sidelined until after the international break in mid-November following his injury against Istanbul Basaksehir in the Champions League, the French club's coach Thomas Tuchel said. Brazil play World Cup qualifiers at home to Venezuela and away to Uruguay on Nov. 13 and 17 respectively. REUTERS
